ABOUT US

Handmade with love and happiness; that's the core of the Koperberg collection. From our unique Wishing Flags to relaxing yoga pillows, each of our products bear the Koperberg signature; Dutch design combined with traditional craftsmanship.

Since the 60's - when Theo and Willemien Koperberg founded our company - we have been working closely with small family businesses and social enterprises in Asia. Just like us, they're passionate to keep old crafts alive and to create sustainable livelihoods.

Our products are made by skilled craftspeople using old techniques, often passed on from generation on generation. We want you to experience the rich cultural heritage of Asia in our products.

We work with producers that embrace the Fair Trade principles. Fair payment, good working conditions and gender equity are unquestioned business ethics.

We keep a close look at the environmental impact of our supply chain. So our paper goods are made of recycled materials and we use AZO-free dyes.

Empowerment is key for our producers; women are encouraged to take leadership positions. And we support various social projects like girls education and AIDS-awareness programs.
